

# VPN Connection for CUA User Community Windows 10

- PC **CANNOT** be on the CUA network
- In any browser, navigate to [vpn.cua.edu](http://vpn.cua.edu)
- Download Cisco AnyConnect from this website
- Install and use it to VPN to CUA secure sites remotely.

## How to Install Cisco AnyConnect

- 1) In any browser, type [vpn.cua.edu](http://vpn.cua.edu)

- 2) Use your **CUA network User Name** and **Password** to login (Remote Access)

- 3) Click on [Windows Desktop](#) to download the Cisco AnyConnect Secure Mobility Client

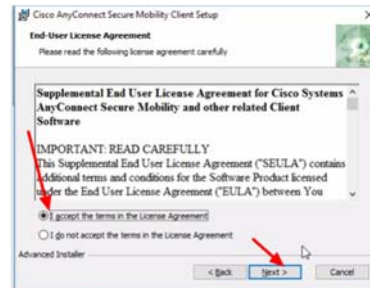

- 4) Launch **AnyConnect** after download is completed.

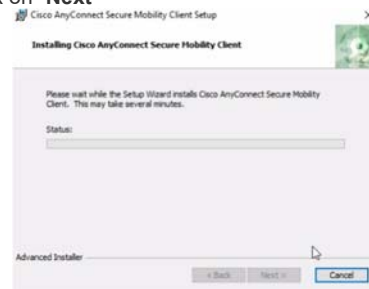

- 5) Follow the download steps by clicking “Next”

- 6) Accept the terms in the License Agreement and click on “Next”

- 7) Click on “Next”

**(\*\*Windows User Account Control (UAC) might pop up and ask for Admin password\*\*)**

- 8) By clicking “Finish”, this concludes the **one time** download of the Cisco AnyConnect Secure Mobility Client.

# VPN Connection for CUA User Community Windows 10
